12 July 1984

MEMORANDUM FOR: Deputy Director for Administration

FROM: William F. Donnelly
Director of Communications

SUBJECT: Weekly Report

1. Arrangements are being made with DO/IMS for OC to assume total management of the maintenance program for the CRAFT project, as well as Wang equipment used in non-CRAFT applications overseas and at certain domestic sites.

3. A contingency communications exercise simulating the loss of the transmitter site [redacted] was conducted from 9 to 12 July. Such exercises are conducted aperiodically for periods of 24 to 72 hours and are designed to verify the capabilities of the OC network and its personnel in a variety of contingency situations.

5. A software upgrade to the Automatic Printing and Reproduction System (APARS) is in the final stages of development by an OC programmer which will enhance the maintenance of
